About Me

As a self-learned creative and passionate programmer/developer I like to build and develop software for any platform. Learning, improving skills, solving problems, and adapting to new technologies are my hobbies. I can give my total effort and perform teamwork with responsibility.

Skills

HTML, CSS, JavaScript, TypeScript, React JS, Next JS, Node JS, Express JS, Nest JS, MongoDB, Postgre SQL, Tailwind CSS, Bootstrap, Sass, Git

Experience

Jr. Frontend Developer (Mediusware Ltd)

01 March, 2024 - Present

- Developing a drag-and-drop website builder similar to Wix and Google Sites.
- Working on event management software solutions.
- It's a multi-tenancy website builder with subdomain publishing functionality.

Technology Used: React JS, GraphQL API, Ant Design, Bootstrap, React Router Dom

Frontend Trainee (Mediusware Ltd)

04 December, 2024 - 29 February, 2024

- Implemented Profile Page CRUD operations and Role-Based actions.
- Developed Back Office/Tasks CRUD functionalities for store owners and employees/drivers.
- Designed Customer Order CRUD features based on driver/employee roles and delivery/pick-up preferences.
- Implemented logical rendering for the Preferences Page without API integration.
- Led the development of an e-commerce project from scratch, including the creation of a dynamic home page with animations and an optimized folder structure.

Technology Used: Next JS, Redux Toolkit, RTK Query, Ant Design, Tailwind CSS, REST API

Frontend Developer (Freelancer)

01 June, 2023 - 30 November, 2023

- Developed frontend solutions for various projects, including a School Management System built with Angular and a Flight Ticket Booking website with full functionality. (Overview)
- Demonstrated expertise in creating dynamic and intuitive user interfaces, incorporating real data to enhance user experience.
